PORTFOLIO **www.salmanpawaskar.com**

PROFESSIONAL SUMMARY

Instrumentation Engineer with **2 years 4 months of SmartPlant Instrumentation (SPI / INtools) experience** supporting oil & gas and petrochemical projects, plus a one-year graduate apprenticeship at BPCL Mumbai Refinery. Skilled in instrument index management, datasheets, bulk imports, wiring configurations and hook-up deliverables, with hands-on exposure to instrument maintenance and calibration.

TECHNICAL SKILLS

SPI: Instrument Index, Specifications, Import Utility, Browser, Engineering Data Editor (EDE)

Deliverables: Instrument Datasheets, Process & Line Data, Hook-Up Drawings, Bills of Materials, Cable Schedules, Loop Drawing Verification

Wiring: Junction Box (JB), Motor Control Centre (MCC), Marshalling Rack (MR)

Data & Reporting: Microsoft Excel, SPI Query Builder, PSR Reports

PROFESSIONAL EXPERIENCE

Krishna Global Services Pvt. Ltd. | Instrumentation Engineer

Deployed at **Thyssenkrupp Uhde India Pvt. Ltd.**, Mumbai

May 2024 - September 2026

- **HPL (Haldia Petrochemicals):** Imported **5,000+ instrument tags** for JB wiring; configured device panels and cables, updated instrument index data and checked wiring connections. Mapped and imported specification, process and line data; maintained datasheet and JB revisions.
- **MPL (Mundra Petrochemicals):** Updated **200+ instrument tags**, created loops and corrected reference panel/cable assignments. Converted AutoCAD hook-ups to **.sym**, assigned tags and updated drawings and BOMs.
- **IOCL PBR:** Imported **600 JBs** for DCS, ESD and F&G systems; configured panels, terminals and cables. Prepared hook-up items and supported **MCC and marshalling rack wiring**.
- **RIL VCM-021 & DMD-121:** Maintained **Spec Data Dictionary** settings and datasheet alignment; executed wiring for **700+ tags**. Imported **430 .ISF files** for the VCM refrigeration package in batches.
- **RIL EDC:** Configured JB, MCC and MR wiring for **1,000+ tags**; checked terminal connections, cable assignments and signal levels in SPI.
- **HZL & ACME:** Configured branch/main cables to approved project requirements (**FR/FRLS, IS/NIS**); generated cable drum schedules and JB wiring reports.
- **Across projects:** Used Browser, EDE and Query Builder for bulk updates; cross-checked SPI extracts in Excel for missing connections and terminal mismatches. Created hook-up variants for **100+ tags** to meet the **20-tags-per-page** requirement.

Bharat Petroleum Corporation Limited | Graduate Apprentice Trainee

Mumbai Refinery | March 2023 - March 2024

- Performed **control valve maintenance, stroke checks, commissioning and calibration** at CDU-3; calibrated flow transmitters and gained exposure to nucleonic gauge calibration at CCR.
- Participated in **CCU, FCCU, GTU and CCR shutdown activities** and refinery Fire & Safety Training. Checked MOC task checklists, LIMS reports and COMOS workflows.

EDUCATION

B.E. - Instrumentation Engineering | 2022

MCT's Rajiv Gandhi Institute of Technology, University of Mumbai

Languages: English, Hindi, Marathi
